

## How to Get Smart with Sunday School

**Get more people involved:** Greeters, hospitality leaders, fellowship leaders, outreach leaders, care group leaders, apprentices, prayer partners, etc . . .

**Enlist prayerfully and properly:** Present them with a job description (3-5 things to do related to the position)

**Train all leaders:** Everyone should know how to do their job, know why it is important, and know what will be expected of them.

**Start on time:** Leaders should be in place no later than 15 minutes before class time and everything should begin promptly.

**Minister to members:** Form Care Groups and contact each member every week to discover ministry and prayer needs.

**Ask members to develop an Acts 1:8 prayer list (resource available through State Sunday School Office):** This will provide good prospects for fellowships and outreach events.

**Reach people for Christ:** The priority of Sunday School and the aim of each Christian is to be a witness.

**Teach people the Bible:** The Truth that Transforms Lives!
